Subject: RE: Follow-Up Items from LWG FS Meeting
Date: 11/23/2009 03:24 PM

Eric,

Thanks for putting together this useful summary. I reviewed my notes & think you captured all the: 1) EPA & Gov Team tasks, 2) key concerns re: the LWG's proposed framework, & 3) LWG tasks. You asked for volunteers to talk on specific questions re: the LWG's Tools & Approach..., I'll volunteer to take on the Disposal Site question. Perhaps we can talk about additional duties in our 12/1 EPA/partners FS Team mtg.

Jim

Subject: Follow-Up Items from LWG FS Meeting

Attached is a table summarizing the follow-up items from Wednesday's meeting with the LWG. I have divided the list into four categories:

EPA and Government Team Tasks - These are follow-up items specifically identified by the LWG.

These are probably our highest priority.

Proposed LWG Framework - These are key concerns about the overall LWG approach. Brad is developing a write-up on this approach for distribution to the FS Team.

LWG Tasks - These are the modeling tasks that the LWG is pursuing. I want to track these to identify and areas where EPA input is required.

Specific Question on LWG Tools and Approach - This is a list of questions that came out of our pre-meeting and the discussion on Wednesday. The priority for follow-up for these items varies. We will need to identify point persons for each question/comment.

Please look this over and let me know if I missed anything. In addition, please let me know if you want to take the lead on any of the items in the last category.

Karl, note that I made you the lead on the MNR cost estimates since your name was all over the DOD MNR guidance and there is a section in that document about monitoring some summary cost information.

If anyone has comments or questions, please let me know. This is a living document.

Thanks, Eric
